

MISS HANSEN TELLS OF DRUG TERROR

JUANITA HANSEN
Her story on how addicts are made, will appear each day in the Boston American. She declares ignorance of the danger led her to seek relief in drugs when she was ill and overworked.

The Boston American begins publication today of the story of beautiful Juanita Hansen, who was last yesterday a motion picture star with a contract that paid her \$12,000 a week and an interest in her pictures. Today she is a penniless victim of the narcotic drug evil.

She will tell you in this series of articles how easy the downfall was and how bitterly she has paid for her weakness. When you have read this amazing story, with its thrilling incidents, its surprising philosophy, you will want to take a hand in stamping out the Great Drug Evil.

Here is Miss Hansen's own story:

By JUANITA HANSEN.

For two and a half years I was addicted to the use of narcotic drugs. Recently I took treatment at Oakland Sanitarium prescribed by Dr. John Baker. I was discharged as cured.

I am free from the habit that held me a slave, and I thank God for my liberation from the terror of live-long addiction to which I seemed to be doomed.

It was a party to which I had been invited in Hollywood, and felt quite flattered to be present. Inasmuch as there were seven or eight of our prominent artists there when I was initiated into the "Frasco," as it is called in the West.

I had noticed during the evening that there was considerable whispering and a sort of undercurrent of secrecy of a mysterious something, so, naturally, when one of the party said, "I believe we can initiate her," indicating me, I really considered it a compliment.

Then they came into the room to watch the performance. One of the boys reached into his watch pocket and brought out a small paper carefully folded. Then he took out of another pocket a small nail file. He opened the paper and revealed a small amount of white powder.

Tells of First Step

Handing me the nail file, he told me to take a small amount of the white powder out of the paper on the end of the nail file, then in his hand it through my nostrils.

I had no idea what the powder was. I had never heard of any such thing like that. It did not occur to me there was the slightest harm in it, because everyone present seemed to take what they called a "sniff" after I had taken one.

I did as I was told, but instead of inhaling, snuffed, and blew the powder all over the room, which, of course, caused a great deal of mirth.

With the second attempt, though, I succeeded in inhaling a small amount of this powder. The effect was very pleasant.

It seems to be a common belief that when you take narcotics you have visions or dreams. That is absurd. It is merely a pleasant sensation. You feel at peace with the world.

Little did I dream that this was the first step, a false step, which would cause me years of heart-sickness and mental agony. Neither at this party nor at any of the subsequent parties that followed was I ever warned that this was habit-forming. I was only told how I was cautioned on Page 2, Column 6.

WILL UNION TO DEMAND NEW RAISE

By the Associated Press.

New York, April 5.—Disatisfied with the 12½ per cent. wage increases recently granted by New England textile mills, the executive board of the United Textile Workers of America have decided on a campaign for an additional increase of 14.9 per cent. President Thomas F. McMahon announced today.

This decision, McMahon said, was reached at a special meeting of the board. James Starr, vice president of the union, left for Manchester, N. H., today to take charge of the campaign, which will be started intensively next Monday.

"In a month or so," he declared, "we expect to be in a position where we can take the forty-eight hour week and the additional wage increase needed to bring our workers back to the pre-1919 wage level."

Foreign language speakers are being "borrowed" from other unions for the campaign, he said.

Discussing the recent increase announced in New England, and particularly the statement of New Bedford manufacturers that the increase restored workers to the war time wage level, McMahon said:

SEEK OLD PAY LEVEL.

"On December 1, 1925, we demanded an increase of 25½ per cent. which would have just brought wages back to the point they were before the 23½ per cent. cut made in December, 1920. In addition to the 13½ per cent. increase the mills have announced, we require an additional

WED BANKER DESPITE MOTHER

Bookkeeper Now Bride of Vice-President Rooney of the First National

Vice-President Edwin Richards Rooney of the First National Bank and Miss Madeline Helene Snow of Brookline, one of the bank bookkeepers, were married today, despite the expressed opposition of the bride's mother.

The ceremony was performed at the rectory of St. Cecilia's Church, Back Bay.

The bride's mother, Mrs. Isabelle Snow, of No. 17 Park Vale street, Brookline, declared she believed the wedding had taken place. Her daughter had left home Monday and the mother thought the girl and the banker were married and en route to Atlantic City.

Mrs. Snow said she knew about the bridal plans but had refused to sanction the marriage because she believed Mr. Rooney too old for her daughter. He is forty-two; his bride is twenty-three.

First news of the wedding plans came when marriage intentions were filed at City Hall and Mr. Rooney obtained a waiver of the five-day law.

Mr. Rooney, whose home is at No. 10 Kenmore street, Back Bay, is widely known in financial circles. He is member of the Exchange Club, Boston Athletic Association and Winchester Country Club.

LOU ADMITS LOVE FOR FARRAR

Actor Says She Is Pure-Minded; Declares They Never Quarreled Over Women

New York, April 5.—Supreme Court Justice O'Malley today granted the application of Miss Stella Larrimore for a stay of the proceedings in Geraldine Farrar's divorce suit against her actor-husband, Lou Tellegen, until April 29. The stay was sought so that Miss Larrimore, named as correspondent by Miss Farrar, might appeal from a decision denying her demand for a jury trial to determine the truth of the charge against her.

New Orleans, La., April 5.—Lou Tellegen still loves Geraldine Farrar. Of this there is no doubt today.

In answer to the direct question regarding his feelings toward the beautiful prima donna, who is suing him for divorce, the ardent stage lover who has not been able to hold the affections of his wife said:

"You can say that I still admire Miss Farrar. She is a wonderful artist, a wonderful woman, a pure woman."

"Is there a chance for a reconciliation between you and Miss Farrar?" "No," it seemed. "No," he replied. "All of our happiness now belongs to the past. We just couldn't seem to reconcile our views of life."

The light in his eyes dimmed. The reporter saw in the lines of his face suffering tempered by resignation. And then for a few seconds Tellegen

FIREMAN SPIRITS ON DROPS DEAD AT BLAZE

Another Hurt in Jump

Fall River, April 5.—Captain Robert Mitchell of Ladder 7, veteran member of the Fire Department, dropped dead today of heart trouble after arriving at a two-alarm fire in the four-story brick factory of the Webster Loom Harness Company at Bedford and Essex streets.

John Harrington, son of State Representative Edward F. Harrington, Democratic leader of the House, was seriously injured when he jumped from a third-floor window of the burning building.

One hundred men, women and girls, employed on the four floors of the factory, had left the building for their dinner hour at 12 o'clock, only five minutes before the fire was discovered.

A dozen men, who had lingered after the noon hour struck, escaped to the roof.

British Occult Exponent Reveals Warnings by Ancient Mummies

New York, April 5.—Sir Arthur Conan Doyle, who has arrived in this country to lecture on Spiritualism, today expressed belief that "an evil elemental" brought into being by Egyptian occultism or the spirit of Tutankhamen might have caused the death of Lord Carnarvon, who opened the tomb of the Egyptian Pharaoh.

Sir Arthur was asked if he agreed with Miss Marie Corelli, the English novelist, who warned the explorer that it was dangerous to enter the Luxor Tomb because the spirit of the Egyptian King might be angered.

"It might be a dangerous thing to dig into these old graves," admitted Sir Arthur, who claims to have conversed with the souls of those departed. "One does not know what

"ELEMENTALS" ON GUARD.

"The Egyptians knew a great deal more about these things than we do. If they could put these elemental entities to guard over their dead bodies, they certainly would have done so."

Continuing, Mr. Arthur said:

"An elemental is a bulky, brutish thing, an imbecile force which may be brought into being by a spirit mind, or by nature. It exists of itself for a specific purpose and is not precocious."

"We know very little about them. We have evidence of their existence, especially in regard to the Egyptians."

"There was a mummy once in the British museum which we believe was guarded by one of these elemental entities. For every one who came in contact with it came to grief. This was the mummy of a queen, and even one of my friends, a well-known journalist, who investigated the circumstances surrounding the haunting that befell the persons who handled the mummy, was himself stricken immediately with typhoid and died."

DEATH BRINGS NEW TESTAMENTARY TITLE TO U. S. GIRL

WIFE OF LORD CARNARVON, WHO SUCCEEDS TO THE TITLE AND EXTENSIVE ESTATE OF THE EGYPTOLOGIST

Continued from First Page.

Niece of the late Professor Barrett Wendell of Harvard is wife of Lord Carnarvon's son, who succeeds to the title and extensive estate of the Egyptologist.

London, April 5.—Leading Egyptologists and medical men at a private meeting here today resolved to request by cable the permission of the widow of Lord Carnarvon to conduct an extensive investigation of the mysterious illness which caused his death.

They state that it was their private belief that he died of a secret poison and that their proposed action was both in the interest of science and the protection of the Egyptian people during future excavations.

The London press, in its voluminous accounts of Lord Carnarvon's life and death, reflects the popular belief that perhaps there is something in the story that the ancient

thing in the story that the ancient Egyptians set a mysterious death trap in the tombs of their rulers to punish by means of poison those who might disturb these sealed resting places.

Superstitious souls, ever since the infection suffered by Lord Carnarvon became known, have contended it was possible he was the victim of retribution.

Fears of further retribution, it is suggested, may deter Egyptians from touching the tomb again, but Sir Wallis Dugan, keeper of Egyptian antiquities in the British Museum, scoffs at this idea, saying that if the excavation enterprise continues to be financed he is sure there will be no trouble in procuring native labor, as "the most powerful influence in the life of the modern Egyptian is money."

Sir Wallis said he had never encountered literary records suggesting that vengeance would be visited upon persons entering the tombs of the Pharaohs. But he added:

"Had it not been such an old tomb it might be reasonable to suppose that poison had entered Lord Carnarvon's system from the gas pressure in imperfect mummification. While medical men puzzled over Lord Carnarvon's strange illness, they were in a knowledge."

"It is the curse of Egypt. It is the curse of the god Ankh, whose prophet was Tutankhamen. No man has so desecrated the tomb of a Pharaoh as Lord Carnarvon. It is the curse of Ankh that he shall die."

The Mohammedans declare it was the curse of Allah which brought about the explorer's death.

seemed to abandon himself to all the bitterness of retrospection.

"But why do they want to dig in to my private life? I have been pilloried by the publicity which has followed a matter which should have been settled in a dignified manner and without embarrassing the names of innocent persons."

Against the general figure in the famous divorce suit, Miss Farrar had been philosophically denied any undue friendship with the half dozen women mentioned in Miss Farrar's divorce action.

Why should they cast reflection on a lady whose family may have been good enough to invite me to dine, or on another who may have driven me in her car from the theatre to my hotel, or still another who may have sent me a token of her admiration of my art?" he asked.

"ALL WRONG," SAYS LOU.

"It's wrong, very wrong," he said. "I do not like that sort of publicity. All I want is to do my work as well as I know how. I always give the best that's in me when I am on the stage. I love my profession, but I am not here for the glory that is in it. I am working to show myself and my art to the people of New York and other dependents."

Despite the statement of Miss Farrar's lawyer to the contrary, Mr. Telegenstraffer with emphasis said that there was a mutual understanding between the lawyer and Miss Farrar that in view of his agreement not to defend her, he would by default permit the divorce to pass, the case would be tried in chambers and before a referee. It was understood also that none of the names would be mentioned in the spotlight of publicity.

Boy Wanderer

Vict F. Goodnow, sixteen years old, of Franklin road, Milton, tells the victim of mysterious injuries, is unconscious in the Massachusetts General Hospital, from injuries which he received from a tramp.

"I was walking along the road to Randolph and something hit me. But he was beyond me unconscious, from which he has not recovered."

Three years ago young Goodnow son of Mrs. Fred E. Goodnow of South Braintree, was struck by a tramp, who rendered him unconscious. When he recovered consciousness, he was found to be suffering from a burn of the stomach.

He ran away from home some time, and refused to go to school, and when he was but fourteen years old, he became an "international tramp" and visited many parts of the United States and Mexico. Physician said his wanderlust was due to a form of dementia resulting from being struck by the tramp.

About the middle of last February word came from Omaha, that after years of wandering the boy had been picked up at Council Bluffs, Iowa, suffering from a lapse of memory and insanity, and that he had been restored to mental health by a difficult operation on the skull.

He is reported to have attempted suicide at Cohasset, N. Y., when he was about to be arrested for alleged robbing. He was home from his wanderings less than a month when the third mysterious accident befell him.

GERMANS SHOT IN THE BACK BY FRENCH

Cologne, April 5.—The French moved mission at Essen reported that five of the dead in the disturbance at the Krupp works were killed by shots in the back. Several of the dead were also shot in the back, showing that the French soldiers fired after the crowd began to flee in a panic.

The number of dead has now increased to thirteen. Their funerals have been postponed.

All the German papers at Essen have been suspended by order of the French authorities, but the Ruhr Echo, which is pro-French, is allowed to publish daily.

The German railway stations at Essen-Nord and Kray were occupied by French troops.

German Labor Appeals to World Against France

London, April 5.—German labor unions, says a Berlin dispatch, have now intended to build up the organization to such proportions that it will be able to do their utmost to avert the danger of a new war.

It was probably a month later that I realized and discovered myself that this was surely habit forming.

What a terrible awakening! You will never know what a shock this was to me. I discovered it one morning when I did not have any of the habit left. I could not drive myself. I had gone to pieces.

The length of time it takes to become an addict is a subject greatly discussed today. DeQuincey, author of "Confessions of an Opium Eater," says "In less than 20 days the habit of opium-eating could be formed."

In two and a half months I was an addict. It would have been easy to break this habit had I not been so much in the habit of driving myself. This picture to date has made a great deal of money. Three months before I finished it I was a very flattering offer to come to New York to make a picture.

Again I made a resolution—I would be free of this thing before I went East. But how?

I confided at last in a doctor, paid him considerable money, only to find out that it required time, three or four weeks, to cure me. Would an appeal to the manager have helped me? No, I knew that was useless.

Another absorbing chapter of JUANITA HANSEN's own story, his own confession, is the Boston American tomorrow.

ROBBER SHOT AND WOUND

Amos J. Sherry of No. 37 Robin Lane, who was shot and wounded today in an odd chain of accidents on Monument street, Back Bay, was driving an automobile. A pole carrying a live electric wire fell over.

The pole struck Mr. Sherry's automobile. The live wire inflicted a burn on the left side of Mr. Sherry's head. It also ignited his clothing.

The fire in his clothing was put out by pedestrians who ran to his aid. He was taken to the office of Thomas R. W. White, 100 State street, where the burn on his face was treated. Then he was sent home.

However, today I could acquire the habit anew in less than a week.

One evil deed breeds another.
As though there were not enough
seeds of war in Europe, and the
worst of all, religious hatred must
be added.

LADY NORTHCLEIFF, widow
of the great British pub-
lisher, was married yesterday to
Sir Robert A. Hudson. North-
cleiff, who in newspapers and
other respects, advised his wife
to marry again, and even, it is
said, picked out a man he thought
she ought to marry.

Picking out the man must have
been the difficult part of it.

MAN asking his wife NOT
TO MARRY at his death,
is not so far removed from the
Hindoo that would ask to have
his young wife burned alive
with his ancient car.

Nothing reveals character so
much as the foolish statement
in a man's will, "My wife
shall have anything if she marries
again."

Beauty of 17
To Be Yale
Man's Bride

New York, April 5.—The betrothal
of Miss Gloria Gould, a seven-
teen-year-old beauty and youngest daugh-
ter of George J. Gould, to Henry A.
Bishop, Jr., a former Yale student,
son of Henry A. Bishop of Bridge-
port, Conn., will be announced to-
night at a supper and dance ar-
ranged for her by her brother, King-
don Gould, and Mrs. Gould, the New
York Herald says today.

Her father has been critically ill
at Mentone, France, for several
weeks.

Miss Gould, an accomplished clas-
sic dancer, attended Miss Spencer's
school and later studied at the Chalf-
ont School of Dancing. She was a fre-
quent guest at amateur theatricals
and recently did a solo number at an
entertainment in Carnegie Hall. Her
mother was Edith Kingston Gould.

Bishop is a descendant of some of
the country's earliest settlers. Al-
fred Bishop, his grandfather, built a
large part of the New York, New
Haven & Hartford Railroad, of
which he was the first president.

His father is a director of several
large corporations.

Secures Counsel to Fight His
Former Wife's Move to
Change Son's Name

Portland, Me., April 5.—The
marital troubles of Neils Gron,
the Danish diplomat, and his
former wife, Mrs. Madeline
Masters Gron, continue to multi-
ply.

Gron has hired a public hall here
for the purpose of giving lectures
to the people in order that he may get
his side of the case before the pub-
lic.

He has also announced that he in-
tends to bring action for alimand
against some of the clerics who
gave testimony in Mrs. Gron's be-
half when she secured her divorce
several months ago. Two Episcopal
church bishops and three other
clergymen were among those who
gave evidence in Mrs. Gron's be-
half.

Gron has admitted his willingness
to bear the expense of the boy's
education if he is allowed some voice
in the matter. The court will con-
sider this request at the time the
petition to change the boy's name
comes before it.

for Next Week

By International News Service.

Albany, N. Y., April 5.—
Mrs. Walter S. Ward will be
subpoenaed to testify next
week in the investigation
which the State is making,
through Attorney General
Sherman into the Ward-Peters
murder mystery.

All the witnesses are to be
called to testify in the
case of the late Mrs. Ward.
It was learned that the
Attorney General has hopes of in-
ducing George S. Mrs. W. S. Ward,
father of
Walter, to return to this State from
White Sulphur Springs and testify
in the inquiry.

Under the law, any person who
refuses to answer a question when
directed to do so by the attorney
general in an investigation of this
character is guilty of a misdemeanor.

Charles D. Ward, a brother of Wal-
ter, Senator Rabelson, chief counsel
to Ward and Allen H. Campbell,
who also acted as counsel to Ward,
has refused, point blank, to answer
many questions when directed to do
so by the attorney general.

9 HOLDUPS IN WEEK
CHARGED TO 1 BANDIT
William T. Gray worked overtime
for one whole week as a bandit dur-
ing the first part of March, accord-
ing to the nine counts of an indict-
ment returned against him by the
Middlesex County Grand Jury.

Gray, who is also known as Ed-
ward Murphy, is charged with steal-
ing an automobile from Rupert Ma-
plebeck in Cambridge on March 2.
Two days later, he was charged with
robbing Samuel Kolow, the proprie-
tor of a Cambridge drug store, of a
revolver. Sam Blackwell, a clerk,
said Mr. Murphy had stolen the re-
volver, both customers and Ray Bu-
chanan, both customers, were also
charged to have been his victims.

Gray is also charged with being
rounded out the week by holding
up and robbery of four homes-
ide, of the country, of that we feel
it is a shame.

ISENBECK HAD
'GET MARRIED'
MANIA

New York, April 5.—The final
chapter of the romance of Ernest
G. Isenbeck, Jr., son of a real estate
broker of Fenby, Mass., and Jose-
phine Astel, daughter of a millionaire
Cleveland coal operator, has been
written.

Justice Callaghan, in the Supreme
Court in Brooklyn, annulled the mar-
riage, saying:

"He just had a mania to get mar-
ried. I don't believe Mrs. Isenbeck
knew of his trouble with the Beverly
Mans, girl. I believe she would not
have married him if she had known
of his mania."

The pair were married in this city
last November, and Mrs. Isenbeck
testified she later learned her hus-
band had been the father of an il-
legitimate child and directed to pay
\$4 a week for its support.

Mrs. Isenbeck said on September
20, 1922, she, her parents, an aunt
and a girl friend, were visiting in
Buffalo, and near Erie Isenbeck and
his friends were in a motorcycle
accident. They were all injured.

Isenbeck said that on October 19,
1922, he had been accused by his
wife of having committed adultery
with her husband.

ASSAIL WINNERS
FOR ALL ILLS OF
COAL BUSINESS

Washington, April 5.—A special
committee speaking for the bitu-
minous operators informed the Coal
Commission in a brief filed today
that in their opinion the policies
followed by the United Mine Work-
ers of America constituted the chief
obstacle to satisfactory conditions
in the coal industry.

Recent periods of coal shortage
and high prices, the brief declared,
could be "directly traced" to the
miners' union and the railway
unions associated with it.

It was charged that acts of intem-
perance and violence on the part of
the workers "are not sporadic but
systematic," and that the resort to
such methods is calculated to per-
petuate a "monopoly" of mine labor
TO PROVE CHARGES.

H. L. Rimsom, former Secretary of
War, and G. M. Dyer, as counsel for
the coal operators, prepared the
brief, which asked the Coal Commis-
sion to give the employers an oppor-
tunity to air their views on the
charges.

To the brief, setting forth the com-
mittee's charges and general con-
clusions, was attached a full statement
of a series of labor controversies in
America in the effort to monopolize
the industry. Responsibility for these
controversies, the committee charged,
lies squarely with the Mine Work-
ers' Union.

PARIS DECLARES WAR ON NAKED STAGE WOMEN

By ALICE LANGELIER
International News Service

Paris, April 5.—The French government, in the interest of public morality, has declared war upon the growing practice of exhibiting nude women in theatres.

This crusade was emphasized yesterday when Princess Zulaika, "The Beautiful Princess" and Harry Pierce were arraigned for the second time on the charge of taking part in improper performances in the Theatre du Palais National. Their original arraignment took place Saturday, but the judge told them to return today to give an exhibition of the dancing acts. He promised to render judgment later.

The practice of allowing naked women to appear upon the stage and to walk through the aisles during theatrical performances was so much an extent that the cabinet took cognizance of it.

It is said by French theatrical producers that nudity is not "obscene," but "aesthetic." The claim that rich tourists from abroad, who are pillars of their home towns, are the principal supporters of these shows.

An idea of the nature of the shows may be obtained from the titles. Some of them are: "The Chastity Bell," "The Enchanted Bell," "My White Lover," and "Oh, What a Nude."

M. Derval, director of the Palais National, contends that it is proper to exhibit naked women "so long as they are kept at a distance from the audience." In many of the music halls they have been permitted to stroll through the aisles during the performance.

WAR NURSE BURIED WITH ARMY HONORS

The American Legion and its auxiliary, as represented by Ned-

bad Post, in which she held membership, paid military honors today at the funeral of Mrs. Emilie Peard Hemmaway of Newton, who served overseas as a war nurse and who was the wife of Sergeant Raymond B. Hemmaway of the 104th Engineers, a member of the Boston Transcript staff. The services were held at the home of Mr. Hemmaway's mother at No. 55 Eastbourne road, Newton Centre.

Rev. Edward T. Sullivan, D. D., rector of Trinity Church, Newton Centre, officiated. Music was rendered and at the grave in the Hemmaway lot in the Roxbury Cemetery the usual prayers and the reading of the Legion post, including the commander, J. J. Coppinger, the first, last, commander, Coleman J. J. C. Nute, Jr., and Kenneth M. Childs.

AMERICAN AIRMEN TO GIRDLE GLOBE

Washington, April 5.—Before Captain Bapt and his flying circus are well on their way to girdle the globe in the name of France, a party of American lions will help off in an effort to wrest this honor from them.

This expedition is planned by Brigadier General William Mitchell, assistant chief of the army air service, and the corps of flyers who recently arrived at Dayton, Ohio, have smashed most established records in the conquest of the air.

EAST BOSTON MAN IS HELD IN LYNN

Alexander Patterson, aged thirty, of East Boston was arraigned in the Lynn District Court today on the charge of taking fifteen-year-old Antoinette DeLafra from her home and registering with her at a local hotel house as Mr. and Mrs. Michael DeLafra of New York. It was held in \$2,000 bonds for trial next Wednesday. The police of Lynn and Boston are investigating the case. The girl's parents, who live at No. 31 Summer street, were notified and the girl will be turned over to them.

RUM FROM SHIP IS LANDED BY POWER BOATS

Providence, April 5.—A fleet of fast power boats has outfitted the prohibition enforcement agents who have been waiting to intercept them at East Greenwich, Narragansett Bay, Bristol, Westerly and Watchet. They have landed the entire cargo of the British steamer Avon.

The Avonians has left her station town and three schooners at Tiverton, New London and New Haven. By sailing up a little inlet back of Mount Hope the fleet of small craft eluded the watching dry agents entered the Beakmont River and made their way to Tiverton. Several trips were made before prohibition agents/boats in Tiverton became aware of the unusual activity on the water's surface and spread the news.

Motor trucks met the power boats at Tiverton and took thousands of cases of White Horse Scotch whisky and champagne to Boston, Fall River, Newport and other cities in Rhode Island and Massachusetts. For some reason not made known to Providence headquarters none of the stuff came to this city, although much of it was expected here.

The Avonians has left her station town and three schooners at Tiverton, New London and New Haven.

FEAR FLOOD DAMAGE IN CONN. VALLEY

Springfield, April 5 (By International News Service).—All the rivers in this vicinity are approaching flood height and fear is expressed that destruction and possible loss of life will be caused in the Connecticut valley.

The Connecticut River has risen steadily for the last twenty-four hours and is still rising. The Agawam, Chicopee, Deerfield and Millers rivers, all tributaries of the Connecticut, are at flood stage.

off Block Island and yesterday three of the four schooners were near the Avonians set sail for St. Michaels, Michigan, to load a cargo of gun powder. One schooner remains at the limit, just outside the three-mile limit.

LYNN LINESMAN HURLED 35 FEET FROM POLE TOP

William F. Parker, a lineman, received a shock from a live wire carrying a load of 3,000 volts while working on a pole in the High Rock section of Lynn early today and was hurled thirty-five feet the ground.

He suffered injuries from his spine and internal parts but he was still conscious when he reached the hospital.

He companions said that the powerful electric charge literally hurled Parker, who is a 200-pound athlete, from his seat on the cross arm, and that he was not breathing when they reached him. They applied first aid treatment and his breath was restored when the ambulance arrived, but he was still unconscious.

NORTHCLIFFE'S WIDOW FORFEITED FORTUNE TO WED

GIVES UP PALACE AND GOLD

Relatives of Late Publisher Offended by Her Hasty Marriage

London, April 5 (By International News Service).—There was much gossip in society circles today over the marriage of Viscountess Northcliffe, widow of the noted English publisher, to Sir Robert Hudson within nine months after the death of her husband.

"They are on their way to Italy today to spend a honeymoon, following the nuptial ceremony yesterday. They will return early in May."

BY SPECIAL LICENSE

A special license has been granted by the Archbishop of Canterbury, head of the Church of England.

Viscountess Northcliffe was compelled to relinquish millions of dollars from her late husband's estate because of her hasty marriage. In addition she lost the magnificent Northcliffe residence in Carlton Gardens and a special sum of £50,000 mentioned in the will.

The fact that Viscountess Northcliffe relinquished so much property caused great surprise. It is reported also that members of the Northcliffe family are much displeased that the widow married so quickly after her first husband's death.

The only London newspapers that ignore the marriage of Lady Northcliffe are the Daily Mail, the Evening News and the Daily Express. The two former were owned by Northcliffe and are now conducted by his brother, Lord Rothermere, who is owner of the Mirror.

It was rumored early this year that Sir Robert Hudson and Lady Northcliffe were to marry and at that time it was recalled that after the publisher's death reports had it that one of his dying wishes was that should Lady Northcliffe determine to remarry her choice should fall on Sir Robert.

FIRST WILL PROTESTED

Neither the Viscountess nor her husband made any statement before their departure. Lord Northcliffe died in London last August, leaving an estate valued at £125,000, on which a duty of £130,000 was payable to the government, according to his will which was probated on February 22.

It developed that Lord Northcliffe had made two wills under the first of which it was provided that should Lady Northcliffe remarry, the greater part of her share in the estate would pass to other beneficiaries.

The latter will placed no limitations upon her share, but it was the earlier one which was finally probated, the court ruling against the later document after announcing that no agreement had been reached which made further contact unnecessary.

Sir Robert Arundell Hudson was chief agent of the Liberty Party for twenty-seven years.

He was chairman throughout the war of the Joint Finance Committee of the British Red Cross and the Order of St. John. He was largely concerned with the initiation of the London Times Red Cross Fund while that paper was under the direction of Northcliffe. Sir Robert, who is fifty-nine years of age, is a widower, his previous wife having died in 1918.

5 SLAIN IN RUMAN POLITICAL CLASH

Bucharest, April 5 (By the Associated Press).—A crowd led by deputies of the opposition broke into the palace of Prince Scerbiu in Bucharest yesterday, attacking the royal patches received here and was destroying the interior when the police arrived. In the fight that followed, five persons were killed, it is reported.

This is one of a series of incidents that have embittered the controversy in the Rumanian capital, between the Nationalists, led by Prince Minister Bratiano, and the minority parties.

Ident opponents of the government affirm that the minorities are deprived of their political rights under the new constitution.

RURAL FINISH FOR HARDING

Marion, O., April 5 (By the Associated Press).—When he leaves the White House, President Harding plans to return to the scene of his early childhood to become a gentleman farmer and to spend much of his time untroubled.

This was announced here by the President's close home town friends following his purchase of the farm in North Bloomfield Township, Morrow County, where he was born. The purchase consists of 25½ acres and was made by French Crook, Marion postmaster and intimate friend of the President.

The original Harding farm, where the President was born, consisting of 25½ acres, is far from any railroad and about a twenty mile drive from Marion. The house in which the executive was born is still standing, although in a bad state of decay. Whether the President plans to reside there is not known.

President Harding has told close friends that he expects to visit the farm in July and possibly sooner to plan improvements, which may include a bungalow and golf course.

The farm was purchased from Harry H. Erickson, who has owned it for several years and whose wife is a second cousin of the President. Dr. George T. Harding, the President's father and a practicing physician here, has told that the President's early ambition was to be a fisherman. Friends, however, assert he never became a good hook and line artist, though he dabbled at the sport sometimes.

5 SLAIN IN RUMAN POLITICAL CLASH

Bucharest, April 5 (By the Associated Press).—A crowd led by deputies of the opposition broke into the palace of Prince Scerbiu in Bucharest yesterday, attacking the royal patches received here and was destroying the interior when the police arrived. In the fight that followed, five persons were killed, it is reported.

This is one of a series of incidents that have embittered the controversy in the Rumanian capital, between the Nationalists, led by Prince Minister Bratiano, and the minority parties.

Ident opponents of the government affirm that the minorities are deprived of their political rights under the new constitution.

LOBSTER PRICES SOAR TO \$1.35 PER POUND

The price of lobsters in Boston today mounted to an altitude which was not approached even during the early stages of inflation in wartime. Fresh broiled lobsters are retailing in the big markets for \$1.35 per pound, and in the smaller markets, from that figure upward. Live lobsters retail for \$1.50. Wholesale dealers quote live lobsters at \$1 and broiled at \$1.25.

This is the season when lobster prices are usually on the decline. The close season ended in Nova Scotia last month and under normal conditions there would be from 800 to 1,500 of the 150-pound crates coming to Boston from Canada every week. At present the receipts from Canada are practically all. Receipts from Maine are also at a very low ebb and the few that are now in the market come mostly from Canada, where they have spent the winter.

The conditions in the bays and inlets from Portland, Me., to the head of the Bay of Ponds are responsible for the present shortage. Lobster fishermen who have been tempted by the present high prices to set their traps have lost their gear. In one or two instances they have lost their lives.

Until the crabs are free from there will be no relief from the lobster famine from which Boston is suffering and which is sure to bring about the cruellest of starvation for a week or two longer.

EXPOSITION IN JAIL: PLOT, SAYS SHERIFF

Warren, O., April 5 (By the Associated Press).—An explosion partially wrecked the Trumbull County jail today in what is believed by the sheriff to be an attempt at a wholesale jail delivery.

Three prisoners were injured, a hole down in the wall and windows of the west corridor of the jail were shattered.

CHARGE ACCOUNTS OPENED—PAYMENTS AS LOW AS \$1 A WEEK

The reason that we can offer such remarkable values to our patrons is because of the wonderful Sallinger purchasing power. "Irresistible Man" Is Missing; "Rivals" Suspected

Arthur Parquetta, the Manchester, N. H., "Daring Giant," is missing. Today Mrs. Parquetta appealed to the Lynn police to aid her in finding him. Mrs. Parquetta tearfully told Chief Burkes that she feared that Arthur had been "bumped off" by some jealous swain after a dance. "He is irresistible, you know," she said early, "but his feet two in height and weighing four hundred pounds. Just the sort of man who can go crazy about a woman who can't take care of himself in a squeak."

30,000 IN PERIL OF STARVATION BY TURKS

Athens, April 5 (By International News Service).—Thirty thousand Christian refugees in the Near East are threatened with death by starvation because of orders just issued by the Ankara administration, the Greek government was advised today.

The Turks issued an order that no supplies should be allowed to leave American warehouses without payment of currency during which would cost the American Near East Relief Administration thousands of dollars daily.

The order was made retroactive so that if the relief workers attempted to secure any of the food supplies in storage they would have to pay duties from the first of March.

As practically all of the 30,000 refugees led by the Near East Relief Administration are Greek, the Greek government is highly incensed over the Turkish order.

"This is a new method of causing a 'redneck massacre,'" declared one Greek official.

"It is most probable that Greece will protest to the United States in an effort to obtain action against the Turks."

HOTEL CLARENDON TO BE AUCTIONED

One of Boston's famous old landmarks, the Hotel Clarendon, on Tremont street, near Berkeley, is to be a favorite rendezvous for sportsmen, is to be sold at public auction this morning at 10:30 o'clock. Prohibition has forced the hotel to close its doors. The property is owned by the estate of Andy Anderson.

Costs Only 50c BUT MY, HOW POSLAM HEALS!

A hundred dollars couldn't buy the relief that the first bottle of Poslam brings to itching, inflamed, uncomfortable skin. Test a bottle of skin-itching Poslam costs but 50c. Poslam is so concentrated and acts so directly that a little goes a long way. But its medication is so gentle that it won't irritate the most delicate or inflamed skin. Sores, rashes, eczema, itches, pimples—they simply cannot resist Poslam. Use before the war, use during the war, the new—every day. For trial sample, send 5c to POSLAM, 243 W. 47th St., New York.

Poslam, when medicated with Poslam, cleans and brightens the complexion and prevents return of eruptions.

SEES GREATER VOICE FEAR OF DEVELOPMENT MOVIES IN OF N. E. MILLS BROOKLINE

Lawrence, April 5.—Statement by Treasurer Edwin Farnham Green of the Pacific Mills to the Pacific Mills Overseers Association that he had highest confidence in the future business of the mills here and in Dover, N. H. was subject of discussion here today.
It was commented that Mr. Green mentioned the "difficulties and disadvantages" that he said assailed the Pacific Mills here.
Recently the corporation announced it would erect a new bleachery and finishing department at Sharnburg, S. C. and move the spinning from the local mills. It was spoken of as additional proof southward of New England cotton manufacturers seeking cheaper labor.
To the Pacific overseers Mr. Green made the significant statement that success in the Southern mills had been due, not to long hours of work and low wages, but to efficient management.
"In view of all the discussion about Southern competition, I as treasurer, want to say that I have the highest confidence for the future business of the Pacific Mills here in Lawrence and also in Dover, N. H.," he added.
"I am hopeful and confident that in spite of difficulties and disadvantages that assail us here, we can continue to develop and increase our property in Lawrence and go on producing the same as usual."

BOYS MAKE RADIO SETS FOR INVALIDS

Ten boys of a home, under the leadership of Edward Wiseman of No. 4 Pleasant street, are now making and installing simple radio and placing them in the homes of shut-ins and invalids.
These boys are connected with the First Unitarian Church and under the guidance of the pastor, the Rev. George A. Mark, are spending their spare time in this way.
They install the instruments in homes and give the proceeds to those who cannot afford to have radios. They have made and fair equipped a radio set for a crippled boy in Fall River.

WAGE AGREEMENT ASSURES BOSTON OF RECORD BUILDING BOOM

MILLIONS IN WORK PLANNED

Latest Peace Pact Includes Method for Settling Future Disputes

The two-year agreement between the building trades unions and their employers will result in a building boom in Boston that will aggregate \$150,000,000, according to Mayor Curley, through whose influence a conference was called and a serious strike averted.

Terms of the agreement arrived at provide for an increase of 6 cents an hour in wages of every worker in the building trades industry, in immediate effect upon the signing of the agreement, and for 5 cents additional beginning the last day of July.

TWO-YEAR PACT.
The agreement will be in force until the first of April, 1925, and it is believed to be a guarantee of peace and stability that should make possible the building construction program now pending. The agreement also provides for settlement without strikes of disputes that may arise between now and the termination of the agreement.

On March 14 a similar conference held in City Hall resulted in a deadlock. Employers offered to renew the old agreement of \$1 an hour while representatives of the Building Trades Council demanded an increase of 15 cents an hour. A strike seemed imminent, and it is probable that no agreement had been reached, the building program would have been seriously hampered by labor disputes.

Figures submitted by the building department for the month ending March 31, 1923, represent a total on new construction and alterations amounting to \$1,670,000, as against \$1,439,000 in 1922. The total for the year 1920 was \$4,881,000 and for the year 1921 nearly \$2,800,000 less than 1920. This augmentation, according to Mayor Curley, may be traced directly to the unsettled conditions in the building trades industry.

LEADERS COMPLIMENTED.
"The agreement reached may, perhaps, not be pleasing to all the members of each particular union," Mayor Curley said, "but the retention of the wage that came out of the World War with an addition that is a compliment to the leadership of both organizations, who are parties to the agreement."

"Cooperation that is based on a desire to give the fullest measure of equity possible on the part of the employer and employee is the heart of the hour, while the admission of arbitration of industrial disputes without resorting to the savagery of strikes is a long step forward that should prove of genuine benefit to the entire city."

KERN WILL BE TRIED IN PASSPORT CASE

New York, April 5 (By International News Service).—Martin E. Kern of Allentown, Pa., who came into prominence during the war in the Czech Republic case, will go to trial charged with "willfully making false statements to obtain a passport." It developed today when his counsel withdrew a demurrer entered by him, in the Federal Court. Kern was indicted in December in 1922.

OLD SALTS WILL RACE IN DORIES

Gloucester and Nova Scotia fishermen will meet in another international race next Saturday. This race will not be a schooner race. The hardy men of the sea will compete in dories. The Saturday affair will be called the International New Race, and is put on as one of the closing features of the National Fishing Show now being held at the Army Base. In the dory race Saturday there will be twenty-five fishermen from the fishing fleet of Gloucester and Nova Scotia. The course will be two miles in length. The start will be at the Army Base. The contestants will row one mile out and will finish at the Army Base. The race is scheduled to start at 2:30 in the afternoon. Already there is much feeling among the men of the fishing vessel now in port and Saturday will see much excitement at the Base. A first prize of \$25 will be awarded. Other prizes are also on the list.

MOVIES CROWD IN A PANIC AS TWO ARE SHOT

Pittsburgh, April 5.—An audience of several hundred men, women and children at a North Side motion picture playhouse was converted into a panic-stricken mob when Gustave Lison walked into an aisle in the balcony and fired seven shots in rapid succession from a revolver. When the lights were switched on Lison's wife and Edward P. Weigert, her escort, were found unconscious in their seats. Mrs. Lison was slumped in the temple, back of the head, right shoulder and neck. Weigert had three wounds in his head. Physicians said Weigert would recover, but felt little hope for Mrs. Lison. Lison, whose military service record showed him to be an expert marksman, died after the shooting, but was arrested an hour later. He told the police he had been "waiting for this chance for months."

FEARING WIFE'S GHOST, HE WEDS NO. 2 AS SHIELD

Los Angeles, April 5.—Testimony concerning a ghost that used to appear upon spectral visits to the living was given in court today at the trial of a will contest involving a \$40,000 estate.

It was testified that Joseph Curtis, seventy-three, married Edith Yeager, forty years his junior, in the belief that she would protect him from ghostly visitations by his first wife.

Curtis had the hallucination that the spirit of his wife No. 1 was spying on him and he saw her coming through the sky in an airplane.

While laboring under this delusion he met Mrs. Yeager, who is alleged to have said she could drive away the haunting spirit of the dead wife.

At his death Mrs. Curtis bequeathed his entire estate to his widow. His brother asked the court to set the will aside on the ground that Joseph was mentally incompetent, as shown by his belief in spirit visitations.

OIL MAGNATES BID FOR VIRGIN LAND IN OKLA.

Pawhuska, Okla., April 5. (By the Associated Press).—The oil kings of America were rival bidders today for leases to probably the richest undeveloped oil lands in the country, the event being the twenty-first lease sale of the Osage Indian nation.

Thirty-two thousand acres of land were being offered for lease to swell the bank accounts of the Osage, the richest aborigines in the world. Relief was expressed that the \$10-

\$10,000 record auction of June last year might be bettered.

Secretary of the Interior Work, Commissioner of Indian Affairs Burke, Senators Owen and Harold, and other government officials were present.

LAWYER DROPS DEAD AT GAME

Portsmouth, N. H., April 5.—Albert R. Hatch, forty-one years old, formerly county solicitor, fell dead on a handball court here, while playing a vigorous game with Sherwin P. Newton. Mr. Hatch, a native of Greenland, was the son of John R. Hatch, and came from a long line of lawyers. He was a graduate of Dartmouth and of Harvard Law School. He is survived by his widow.

STORIES OF BOSTON TOWN

By Jo Swerling

IF YOU OPERATE AN AUTOMOBILE, STAY AWAY FROM DORCHESTER STREET IN SOUTH BOSTON. For a mile and a half, beginning at Andrews Square, Dorchester street has long been known as a skating rink, and daily hundreds of men, women and children glide along in a re-birth of an old fashioned sport.

A RENAISSANCE IN SOUTH BOSTON
The automobile is the nouveau riche of modern vehicular traffic. It is an arrogant on the pave as a Prussian officer before 1914. Its horn is blatant, loud, raucous. Its trappings are hard. Goggle-eyed headlights make pedestrians jump and the snarl of the cutout gives warning to all other traffic that the right of way is sacred to the preference and whim of the motor car.

All over Boston—except for a mile and a half stretch in South Boston—the automobile snubs the more aristocratic and almost obsolete hansom, sufers at the humble delivery wagon and puffs supercilious exhaust at the fast dwindling race of cyclists. The automobile's little brother, the motorcycle, is an infant terrible. The black sheen of the motor family, the thugs of the motor breed, motor trucks, stiletto terror into the hearts of pedestrians.

But not in South Boston, from Andrews square along Dorchester street for a mile and a half. This stretch is a veritable renaissance of an almost forgotten, but not quite extinct, mode of travel and a half stretch automobiles, motor trucks and motor trucks drive apologetically along if the fact is that they'll be barred altogether.

For here the roller skate is king.

Police also Trace Stolen Coat and Gown of Mitchell's Murdered Sweetheart

New York, April 5.—Marriage records in nearby towns in New Jersey were being searched today by New York police officers to determine if Dorothy Hayes, slain model, had been secretly married, under an assumed name, to a young man of wealth, shortly before she was chloroformed.

The police were told that the model had confided to her close friends that she had eloped to New Jersey on the day of her disappearance and gone through a marriage ceremony.

NAMED TWO MEN.
Her friends pressed her for the names of her husband, the evidence, direct answer, but named two men, often seen in her company.

One of the men, whose name was given to the police, was a young man, who worked in the clothing business and was associated with the model, but she had not married him, but she had been seen in his company.

DISPLAYED JEWELRY.
It was also reported that a man of similar appearance, accompanied by another, had visited Philadelphia on the night of the murder and that on their display jewelry resembling pieces owned by the model.

Persons who planned to see Mitchell's relationship with the Broadway display were thought to have met in Atlantic City to try their plans about a week before the murder. The authorities think it significant that Dorothy King herself was in Atlantic City about the same time.

RECOVERY IS ONLY HOPE.
The only hope held out by the police of solving the murder mystery was through the discovery of some of all of the gems and the cost in somebody's possession.

Although the disappearance of the jewelry and the cost indicated robbery, the police, following the receipt of the more recent information, are more convinced than ever that the murder was a robbery.

CHILDREN'S TEETH IS TOPIC FOR MEETING
School children's teeth and dental work in the schools will be discussed at a round table conference at the State House tomorrow under the auspices of the State Department of Public Health.

Dr. Eugene R. Kelley, Commissioner of Public Health, who arranged the conference of dental experts, asserts that more than 90 per cent of our school children have defective teeth, due to lack of proper care or wrong diet.

LYNN HIGH STREETS AROUSED

Pupils Resent Censure of "Immodest" Costumes, and the Boys Rally to Defence

Seniors of the Lynn English High School are indignant at the action of Principal Frederick W. Willard, who censured the costumes worn by Louise Johnson of Lynn, and the girls who attended the "Senior Day" celebration in dresses which he considered too a b revealed, and sent them home in search of the apple of modesty.

The girls, it is alleged, were roused and roused that they were rather scornful display of dimpled knees.

Fellow students declared their classmates were properly clad and did not merit the rebuke received at the hands of the principal.

When the girls returned to the high school, after the principal's demands of Principal Anderson, they were determined to join the school gymnasium.

All members of the senior class, which never grew a single hair, were confined to represent the school in history and folk lore.

SUGAR-BOOSTING CALLED CRIME

Washington, April 5.—A closer organization in the sugar industry was advocated today by the Farmers' Union. In a statement at the annual meeting of the national convention of the organization, the union declared that the "criminal manipulation" of the sugar market was a crime.

"Some of the hard pressed and grieved people of the sugar industry," the statement said, "are thinking that the farmer is sharing in the profits of the sugar market, but the farmer is not. The sugar market is controlled by a few men who are not farmers."

CALL "ATMOSPHERE" IN TEA ROOMS CASES

New York, April 5. (By International News Service)—Tea room cases of the Bowery of twenty-five years ago are being revived by the "atmosphere" of the new tea rooms.

Domestic George is twenty-two and Mary Martin is a year younger. She was nineteen when he made love to her and talked of marriage. Her child is now three years old.

DORCHESTER GIRL ROBBED OF GEMS

Miss Louise McDonough

While the family were away a flapper robber, accompanied by a youth of the "cake-eater" type, ransacked the boudoir of Miss McDonough at No. 123 Park street, Dorchester, and took a string of pearls, a wrist watch and other jewels.

Marion Stone, returned to the high school, after the principal's demands of Principal Anderson, they were determined to join the school gymnasium.

All members of the senior class, which never grew a single hair, were confined to represent the school in history and folk lore.

BENTON'S MOVE FLAPPER ROBS

IN COX-ALLEN GIRL'S BOUDOIR

PEARLS, WRIST WATCH AND OTHER JEWELS

The feud between Governor Cox and J. Weston Allen centered today in the office of Attorney General Jay R. Benton.

Mr. Benton has two problems before him. He has authority to appoint Allen a special attorney-general without the Governor's approval. If he has that authority, would he be expedient to appoint Allen in the face of the Governor's opposition?

Governor Cox has declared he will not permit the employment of Allen by the State, in any capacity, while he is Governor. He has also expressed his opinion that the former Attorney General must suffer the loss of \$1400 in expenses incurred traveling outside the State in preparation of the State's case.

While it is conceded that Benton can run a department any way he wants to, it is believed that the anti-trust case he has to handle will involve him in another feud with the Governor.

Ever if Benton decides he has no power to compensate him out of State funds. All appropriations for special employment are passed upon by the Governor.

PROSPERITY

MADE HITS

DAI STATE

Business booming in all localities; thousands of workers get wage increases. A wave of prosperity has hit the State.

Business everywhere is picking up. Wages are ascending. A job is open to practically everyone who wants it.

The foregoing is a synopsis of the most heartening reports of business, trade and labor conditions made to Governor Cox by General Leroy Sweetser, the State's Commissioner of Labor and Industry.

Since he became Governor, Mr. Cox has attempted to keep intimately in touch with the business situation through the medium of the State Department of Labor and Industry, which was organized for that purpose.

General Sweetser makes a weekly report to the Governor, in addition to its free employment agencies, Massachusetts has perhaps the most elaborate bureau in the country for the collection of industrial statistics.

60,000 GET PAY INCREASES.
General Sweetser, with the permission of Governor Cox, today gave the Boston American the copies of his last two reports to the Governor.

These reports show, in summary, that substantial wage increases have been given 60,000 employees in the textile trades, of which wages have been made to 20,000 additional textile operatives and that more thousands of employees have received wage boosts in many other lines of activity.

In his report to the Governor, General Sweetser said the four public employment agencies placed on duty at work that in March, since the business depression began to ease, the available supply of labor has helped by the employers.

HIGH DEMAND FOR LABOR.
The heavy demand for metal trades in the Boston, Worcester and Springfield areas has been a factor in a greater activity in the building trades. The demand for labor in the building trades is in excess of the available supply, notably in Boston.

The following is the announcement of wage increases in the past two weeks. In the form submitted by General Sweetser to the Governor, the tabulated list in the four columns being the textile trades:

ELLS ACTS TO FOIL COUGING LARD LORDS

Courtney landladies are taking advantage of the local housing shortage and are once again in evidence with their increase in rents and their cunning notions. So declared Herbert E. Ellis, city adjudicator of the rent and housing committee at City Hall.

More than 500 complaints have been received by the department since the first day of this month. These landlords, in a majority of cases, have notified their tenants to get out by May 1. It is also announced that a de facto rent increase will be in vogue after the above date.

The State authorities have been appealed to by Mr. Ellis and a program has been mapped out by both organizations, and with their combined powers every known legal point will be raised against any unscrupulous landlords.

Mr. Ellis said, "We had approximately 750 people on each of these dates, and a large number since we have to the office of notice to vacate or increase in rent to take effect on May 1."

"We do not know of any reason for this large number of rental increases by landlords, as the taxes are not increased, repairs have not been increased and water rates have not been advanced. It looks to me like the drying up of the unscrupulous landlords to try and get increased rents for their property."

HARVARD MAN FINED FOR HIS AUTO RUTS
John E. Knowlton, a Harvard freshman, paid \$10 in the Newton Court today for running up a Metropolitan Parkway with an automobile last Saturday night.

Knowlton, 19, was known to drive off the road onto the lawn and back on the car in a dark, quiet night. He gunned up to the car and found Knowlton and a young woman sitting in it. In getting the car on and off the grass plot, however, deep ruts were left in the green, and that is against the law.

SPRING LURES BOYS OUT INTO THE NIGHT
East Boston policemen on the night shift have been kept busy the past few nights rounding up boys ten or twelve years of age and bringing them to their homes.

Four youngsters were taken in early today. None offered any reason for being alone at night, except a desire to "bunk out." The cops decided it was just youthful desire for fresh air and the natural result of Spring and turned the boys over for parental discipline.

Everybody knows how to skate.

PIGGLY WIGGLY HEAD WALLOPS BANKER WITH FIST

FINANCIERS IN BATTLE AT SECRET MEETING

That was a Piggly Wiggly's handiwork, the head of a leading New York banker. The man behind the fist was Clarence Saunders, president of the Piggly Wiggly chain of grocery stores. The attack was a surprise, and the banker was left with a swollen head and a bruised ego.

"How much," Mr. Saunders was asked, "will you and your friends clean up on this coup?" "I don't know," he replied. "I'm not a gambler. I'm a businessman. I'm just looking out for my own interests."

Clarence Saunders, president of the Piggly Wiggly chain of grocery stores, is a man who knows how to win. He is a businessman, and he is looking out for his own interests.

But of these money details he does not like to speak. He likes to see himself only as the plain fellow from Tennessee who, by trying the plain old, has won the name of one of the great storekeepers of the world.

For instance, quoting one of his associates, "I don't know much about the money side of the business."

GERMAN OPERA COMPANION 'LOHENGRIN'

By ZOE FAHER.

It was no easy road that "Lohengrin" had to travel last night at the Opera House, with its "Die Rheinhold" in the afternoon and a heavy counter attraction in the evening at Symphony Hall. Despite all this, there was a good house in attendance and they were enthusiastic over the performance.

The title role was sung by Robert Hutt, who has not by any manner of means recovered from the illness that overtook him on Monday night, when he had to drop out. It is not the part of wisdom to have attempted to sing a demanding role under such disadvantages.

Eias Wuehler sang the music allotted to Elias. Her voice is a good one, though not remarkable in any degree.

Ortrude was interpreted by Marie Leontine Hoffschler, whose voice sounded, if anything, more hard and metallic than on a previous occasion when she had less to do.

Scenery was entirely adequate and the work of the chorus satisfactory and in certain places far more than that.

Ernest Knoch was conducting and the orchestra rose to his test, for him with the basses and woodwinds nobly better than usual.

NOT BRILLIANT WORK.
"Lohengrin and Isold" will be sung on Saturday night by the direction of Edward Mortie.

From the side of the audience that viewed the opening notes of "Die Rheinhold," it was perfectly obvious that what Boston wants to hear, the German song is "Die Rheinhold." It has been so many years since it has been heard that every body who can is taking advantage of the chance to enjoy it once more.

Torero was nothing particularly brilliant about the performance, but he was a thoroughly good one, well balanced with excellent voices to sing out.

BERLIN ENVOY'S SON SHOT AT IN ROME
Rome, April 5 (By the Associated Press).—A bullet was fired at the son of Baron von Neurath, German Ambassador to Italy, as the young man was walking in the Via Veneto garden. The right arm was scratched.

The assassin has not been caught. Premier Mussolini, in consequence of the incident, has ordered the Saturday on Robert G. Gold, British vice-consul at Naples, is personally striving to improve the organization of the police force through the kingdom.

CONVICT SHIP AGAIN OPEN TO THE PUBLIC
Yielding to thousands of requests received during the Winter months Captain D. H. Smith has decided to open the old British convict ship "Succava" to the Boston public for ten days before the midday ship now off in the world's sea from this port never to return.

The "Succava," which lies at Warrenton, one block from the North Station, will be opened to the public from 10 a. m. to 11 p. m. beginning Saturday. She will also be open to the public on Sunday.

MARIA JERITZA IN FINE VOICE AT SYMPHONY

By ZOE FAHER.

When she bows, she goes down on one knee. It is different and very charming and quite characteristic. We take it, of Maria Jeritza.

White from head to foot in a gown that might have been seen with runaways playing over it. Madame Jeritza greeted an audience that filled Symphony Hall last night from end to end with the stage occupied to almost its capacity and hundreds of people lining the walls for the length of the hall.

Her voice is a wonderful thing. There is immense range, power, clarity and quality. It is a voice such as one hears very seldom and its tones will linger for long.

The opening number, the program for Maria Jeritza was the "Devil's Dance." It is a beautiful thing which was given interpretation at the hands of the artist.

Boston will have a new "Madame Jeritza" if the signs of last night do not fail.

There were two groups of music songs in the program, one by Brahms and one by Wagner. Available for the concert were Mr. William Walden, a violinist, and Mr. Walter Gold, a pianist.

STASIAK MEETS WORLD'S STRONGEST MAT STAR IN BOUT

KOTSONAROS AGAINST GERMAN GRAPPLER

By JACK CONWAY.

Though the wrestling attraction the Old Howard presented last Monday for the Grand Opera House, it was not the only one. In the same building, a match was made up of two of the best of the world's great professional wrestlers, Stasik and Kotsonaros, Greek champion, tackled K. I. Kotsonaros, German grappler, in the main event of the night.

Stasik, a tall, dark, powerful man, is a native of Greece. He has won many championships and is considered one of the best of his kind in the world. Kotsonaros, a smaller, lighter man, is a native of Germany. He is also a champion and has won many titles.

The match was a hard-fought one. Stasik used his strength and power to overpower Kotsonaros, who used his technique and agility to keep Stasik at bay. In the end, Stasik won by a technical knockout.

Here's Muldoon's Latest in the Joke Bout Line

That Jack Dempsey and Tom Gibbons will eventually meet for the world's heavyweight championship in a New York ring is ordained by the latest edition of William Muldoon, the well-known human being. Muldoon now indicates his willingness to waive any and all objections he may have to a Dempsey-Gibbons bout, provided Tom can prove his right to the match in the duly conventional manner.

He must appear in a "smoke-up" bout here to prove that everybody already knows, to wit, that Tom Gibbons is a first-class heavyweight fighter.

That proposition is preposterous enough, but Muldoon must add to the general hilarity by making Jack Bennett, as the ring doctor, referee. If Gibbons can beat Bennett, says William in effect, then he will have proved himself capable of giving adequate battle to Jack Dempsey.

This being the case, New York fans may prepare themselves for a title bout between Dempsey and Gibbons without further delay.

DISSENSION IS STRONG AT COMMERCE

By FRED C. LANE.

There is an undercurrent of dissension at Commerce High that is undermining athletics at the Bay School. The trouble has been brewing since the resignation of Coach Edward "Skip" Sherbrook and the first sign of dissension.

The first sign of dissension came to light recently when Barker and refused to accept the appointment as coach of the basketball team. Barker had been the coach of the basketball team for several years and was very popular with the players.

The Commerce High Club has taken a stand and assured the basketball team that they are back of Barker. Barker has accepted the appointment and will coach the basketball team.

BOSTON AMERICANS TWO PAGES OF LAUGHTER

The Man From Puff's

By Thomas L. Mason

IT was a beautiful afternoon in Spring. Mr. Sprague had come from a couple of hours earlier than usual, and he was sitting on the piazza of his country house, enjoying the air and a clear blue sky. He was in the mood where the right kind of a story of interest, when the mail free to him, letters immediately on his chance closer.

In this mood, he was full on a desk and apparently dozing off on the edge of the sofa, when a knock came. He was a member of the fellows in that it showed no doubt.

"That about Mr. Sprague?" continued, "ought to be prepared. Why, I guess you don't know, Sarah."

Mrs. Sprague, who was sitting down by the side, looked at him with a smile and said:

"Don't you remember, dear, she said, 'I am in the mood about that story, a word now?'"

"And what did I say?" asked Mr. Sprague, with a benevolent smile.

"You said that it was dead, it should be dead, and then you turned away."

Mrs. Sprague made no immediate reply.

"How much would it cost?" he asked at last, "to revive that story?"

"I don't know," said Mr. Sprague, "but I'll try to find out."

There was a pause, and then Mr. Sprague continued to look at her.

"I saw an advertisement in a magazine the other day," he said, "for a man who had young trees to sell. It said, 'I am sure it was a tree from Puff's place!'"

"You mean Puff's place?" asked Mr. Sprague.

"Yes, I mean that was it," replied Mrs. Sprague.

"Why, I have a large greenhouse," said Mr. Sprague.

"Sprague said he was and you were in a lot of trouble, even to get a word."

"Well, he said at last, 'I suppose I might get that message, and I suppose Puff to put it in one of those trees. I'll do it.'"

"I may forget," said Mr. Sprague.

He stood up and walked into the house. In a few minutes he had Puff on the telephone.

"What is it, Mr. Puff?" he asked.

"I have a tree for you, a tree from Puff's place," said Mr. Sprague.

Circulation of the Blood

ARISTOTLE very obscurely hinted at the circulation of the blood, and later Serretus partly taught it, but the honor of discovery belongs to William Harvey, who announced it in 1619 and published his book on it in 1628.

The Age of the Earth

How old is the earth? Using the rate at which the earth's rotation is slowing down, it has taken more than 10,000,000,000 years since the duration of the day was between three and four hours and the moon was born.

A person cannot go to the devil by himself; some one else is pulling at him.—Professor T. G. Soares, Chicago University.

Lord Cecil's Tour Political Impertinence.

His Campaign for the League of Nations an Affront to American Dignity.

Copyright, 1923, Star Company

Are our politics still our own? Does it still rest with us as a sovereign people to select our political issues, choose our political campaigns and record our political decisions without interference from any foreign power?

That is the right of every other great and independent people—a right jealously guarded and seldom infringed upon after defeat in war or collapse by revolution. By the liberty and majesty of a great nation, it is our right today. But for some unexplained reason we suddenly have ceased to exercise it, and we admit to our shores foreign politicians who come openly to violate it in defiance of international custom and national self respect.

Lord Robert Cecil's political tour of the northeastern States of the Union is a political impertinence that seems as yet to be little understood. So insidious has been the campaign in this country for the League of Nations; so numerous its disguises under cover of humanity, charity and religion; so varied its appeals and so hypocritical its pretences that many Americans seem to have lost all sense of the facts and issues at stake. Yet the League of Nations has been the one great persistent issue in this country's domestic politics.

Forecast in the international speeches and war policies of Woodrow Wilson, it was passed on and rejected in the Congress elections of 1918.

Declared and argued in every community from coast to coast, it was passed on and rejected in the presidential election of 1920.

Half accepted in principle and compromised with feebly by the present administration in Washington, it was one of the several policies passed on and rejected again in the Congress elections of 1922.

And by the statement of President Harding in favor of the League of Nations World Court, it has been made an issue to be passed on again in the presidential election of next year.

Today the League of Nations is the latest domestic issue in American politics. And the formal campaign for it is opened on American soil by a British lord, a European agent of European nations, a recognized spokesman for the ruling party in the London government.

The offense against international etiquette, the affront to the dignity of the American people is without precedent since we became a great power. What if Senator Johnson were to go out to the French voters and lecture them on Franco's duties in the Ruhr or their obligation to pay the American debt? Or if Senator Borah were to go before the British voters, from London to Edinburgh, and call for an endorsement of some American policy in the Near East or for the complete liberation of Egypt from British control? It is unthinkable the very stones of London and Paris would rise and smite them!

Yet Lord Robert Cecil comes to us, does such things, and American financiers, politicians, social leaders and churchmen pay him homage for doing them. They give public dinners in his honor, invite the press to advertise his political campaign, engage halls, call on the people to attend his speeches. It is enough to bring back Washington and Adams, Jefferson and Monroe, Jackson and Cleveland and Roosevelt from their graves, to thunder once more in the ears of the American people their warnings against such faithless leadership, such humiliating betrayal of this nation's self respect, such indecent humiliation of this nation's pride and this people's independence.

If Lord Robert had come to make a campaign against the ship subsidy his interference in our domestic politics would not have been more glaring. If he had come to make a campaign against the new tariff his interference in our domestic politics would not have been more insolent.

Are we Americans not masters of our own destiny? May we not still determine our fate under the guidance of our own leaders? Are we not still capable of doing our own bidding by the light of our own intelligence? Are we not still men enough to reserve for our own hands the control of our own affairs?

Are we ready to admit men from distant nations to help shape our destiny, determine our fate, direct our politics and mould our policies to suit the needs, preferences and emergencies of foreign peoples, whose purposes are as strange to us as our aspirations are to them?

The international financiers, the bishops, the social climbers, the upstart councils on foreign affairs, the self-named committees on foreign relations and their denatured followers are giving an answer to this question. That answer is an offense against the whole nation, its majesty, its history and its heritage from a mighty past.

Not only should this answer be marked in the minds of 107,000,000 Americans, but the names subscribed to it should be imprinted on the memory of the whole nation, so that when again the hour comes, as it surely will, for this great people to rise in power and rebuke the men who today would compromise its independence and betray its sovereignty, no guilty cyphers may escape the popular condemnation which they all have earned.

Printing Big News First a Public Service

Which New England newspaper is the first to print the big news first right? Take the question of better wages for mill workers, for instance.

One month ago today, in a special report from Providence, this newspaper stated that "workers in the mills of this State and Fall River are to be granted increased wages soon." About 15 per cent., was stated on March 6, was close to the amount of the contemplated increase. It actually has been 12 1/2 per cent.

But the Boston American was not satisfied. It wanted the news first and the truth about it. So it persevered, and on March 21, or twelve days before the official announcement, said:

"According to the program (for the wage conference) the manufacturers agree to give 10 per cent. more pay, but the operatives will hold out for 15. After a bit of operating, they will begin to concede a little and finally agree on a 12 1/2 per cent. basis."

That was the advance picture. That is just what has happened. It illustrates a quality in news service which explains the popular value of the Boston American.

NEW PLANE IS CRASH PROOF

LONDON, April 4.—An air plane under-carriage that is fitted with a highly ingenious system of electro-pneumatic cylinders, which prevent accidents even when the machine is being landed by the "freshet" pilot.

A test of the new invention's possibilities was conducted at the test pilot's flying school. The test plane dropped to earth from a height of twenty feet or so in a way which would have smashed any ordinary under-carriage, but the new gear absorbed the shock without any jouncing.

Nothing short of landing "nose" first is expected to damage any airplane fitted with this type of under-carriage.

A Glacial Year

Editor Boston American:

Dr. Huntington of Yale says: "Whatever the exact process, it appears that in glacial periods the changes in living creatures during a thousand years may have been greater than during a million years of the mild climate of the long intervening periods. It was during the stress of the last glacial period that man evolved the present high power of his mind."

Life does not change unless conditions do. Darwin did not say that man descended from monkey. The monkey is but a stage in the evolution of man. Monkeys will again produce the missing links it conditions

demand that they seek a higher form of life to escape extinction.

What could be nearer to the Supreme Being than something like a tree or mountain? An object that is graceful, free of sin and useful is nearer to my idea of a God than man.

Would Exercise Mind

Editor Boston American:

With regard to the continuous discussion of how people should amuse themselves on Sunday, wouldn't it be a good thing if more of us should devote a little time to serious thinking?

People today depend too much on others for their education and amusement; more thought, of a serious nature, would open up avenues that are now closed, develop new ideas and furnish opportunities for doing things that would change a dull life.

Get and think! The world would be a much better place today than it is if we only would.

Will Get Addresses

Editor Helping Hand:

If "Anna" had not been supplied, then I would like her address, or any girl who is fourteen or under. I have a list of sixteen slippers some other mother might like to have around the house, size 4 1/2 to 5. Also I have quite

a lot of quilt patches. I wonder if someone has a bookcase with four or five shelves in dark wood?

ED. NOTE—We have no bookcase, but we will send you the address of Mrs. H. F. W. who has a daughter fifteen and who would also like the slippers. Thank you.

Poor Family

Editor Helping Hand:

I wish to appeal to you for a poor French family in Green River. The mother was left with six children when the father died three years ago. The oldest girl, fifteen, is consumptive, and there are two more girls, twelve and seven, and boys, thirteen, nine and three. Her father and mother, who are eighty years old, live with her. She does all the work, outside and in, even to ploughing. She wrote me this week for a baby, and she needs a mother warm, and I sent mine, and I just got another letter asking for clothes. The oldest girl, sixteen, is consumptive, and there are two more girls, twelve and seven, and boys, thirteen, nine and three. Her father and mother, who are eighty years old, live with her. She does all the work, outside and in, even to ploughing. She wrote me this week for a baby, and she needs a mother warm, and I sent mine, and I just got another letter asking for clothes.
